Emmanuelle –

Let me know what you were thinking of allowing for this extension – they have until the end of the year, so I guess we would just tell them to provide adequate reassurance that they will be able to finish the project? Otherwise I will just take notes on their questions and defer to when you get back.

Thanks!
Karly

Hi Juliane,

I'm vaguely familiar with the HAMP project – I've looked up the deadline for this project, which is December 30, 2018. Emmanuelle will be back in the office on November 26th and the decision maker for any extension allowed on that IA, but I am available Friday 9am-11am or 1pm-4pm if you would still like to discuss. And if you have any specific questions, please let me know and I can try to look it up prior to speaking on Friday.

Sincerely,

Karly Ho, P.E.

Hello,

I received an email from Emmanuelle that she would not be available until the end of Nov.

The subject IA will be expiring in Dec and we would like to extend the IA to the full 7 years as the dollars for the subject are needed for planning efforts on the Hopi HAMP.

I'm not sure how familiar you are with the Hopi HAMP project?

Please let me know if we can discuss this extension of the IA this afternoon or on Friday.

Thanks
